Revised January 1, 2005 (First published July 26, 2004)

Abstract

There are an extensive number of extraterrestrial races known to be currently interacting with Earth and the human population. In a 1998 interview, Clifford Stone, a retired US army Sergeant who served in the US Army for 22 years and participated in covert operations to retrieve crashed extraterrestrial ships and extraterrestrial biological entities (EBE's), revealed there were a total of 57 extraterrestrial races known to the US military. From this pool of extraterrestrial races, a number are more active than others, and can be claimed to have the most significance for human evolution and sovereignty. This report describes the main extraterrestrial races most commonly referred to in the literature who appear to have most strategic significance for the evolution and sovereignty of humanity, and their impact on a range of systemic global problems. The report distinguishes between these extraterrestrial races on the basis of their belonging to one of either two distinct groups. The first group contains extraterrestrial races with which 'shadow governments' responsible for extraterrestrial affairs, have reached agreements with and even collaborated in a number of joint projects. The extensive set of interlocking agreements between these races and the 'shadow government' in the US and elsewhere suggests the existence of a military-industrial-extraterrestrial complex of interests. There is also a second grouping of extraterrestrial races that lie outside of this web of clandestine agreements between extraterrestrial races and 'shadow governments'/national security agencies. Most 'contactees' report these races to be 'friendly' to human interests suggesting a more ethical approach to the challenges confronting humanity as it prepares for the truth about the extraterrestrial presence and challenges posed by advanced extraterrestrial technology.

This report will first describe the group of extraterrestrials that are part of a military-industrial-extraterrestrial complex that while mainly associated with the US, is global in scope. The report will then describe the second group of extraterrestrials who have declined to be associated with the military-industrial-extraterrestrial complex. Distinguishing between extraterrestrial groups in this way helps bring to prominence the complex ethical-legal-political dimensions in understanding how different extraterrestrial races choose to cooperate or not with the military-industrial-extraterrestrial complex. Understanding the motivations and activities of the most significant extraterrestrial races will help greatly in answering questions about appropriate policies to adopt; and will also help private individuals respond adequately to the dilemma over which extraterrestrial races contribute to global problems confronting humanity, and which extraterrestrial races can be worked with for the evolution and emancipation of humanity.

A Report on the Motivations and Activities of Extraterrestrial Races

A Typology of the Most Significant Extraterrestrial Races Interacting with Humanity

1. Introduction [1]

There are an extensive number of extraterrestrial races known to be currently interacting with Earth and the human population. In a 1998 interview, Clifford Stone, a retired U.S. army Sergeant who served in the U.S. Army for 22 years and participated in covert operations to retrieve crashed extraterrestrial ships and extraterrestrial biological entities (EBE's), revealed there were a total of 57 extraterrestrial races known to the U.S. military. [2] From this pool of extraterrestrial races, a number are more active than others in interacting with humanity, and can be claimed to have the most significance for human evolution and sovereignty. The extensive number of reports and testimonies concerning different extraterrestrial races indicates that the motivations and activities of extraterrestrial races vary greatly, and an idea of these motivations can be distilled from close examination of these reports and testimonies.

The most compelling testimonies on the different extraterrestrial races comes from 'whistleblowers' such as Sergeant Stone who served for long periods in the military and/or corporations participating in 'black projects'; and also 'contactees' who have had direct physical contact with extraterrestrials and communicated with them. This includes both 'contactees' in the classic sense of those who have voluntarily interacted with extraterrestrial races, and 'abductees' who have been involuntarily incorporated into extraterrestrial programs. [3] I will first refer to some of the main sources of information for different extraterrestrial races generally operating on Earth, then attempt to make specific descriptions about the motivations and activities of these races using available sources

While there may be considerable debate over the accuracy of the information provided by the whistleblowers and contactees presented in this report, I have argued elsewhere that 'whistleblowers' and 'contactees' provide the strongest evidentiary sources for the extraterrestrial phenomenon. [4] What further helps in supporting the reliability of the information provided by these 'whistleblowers' and 'contactees' is the consistency and coherence of the testimonies and evidence provided by them, and ultimately the credibility of the individuals involved. Consequently, this report will focus primarily on the testimony on a select number of 'whistleblowers' and 'contactees' whose consistency, coherence and credibility suggest they are providing reliable information on the motivations and activities of different extraterrestrial races.

Master Sergeant Bob Dean had a twenty seven year military career and at one time during his service worked in military intelligence at the Supreme Headquarters of the Allied Powers in Europe (SHAPE) from 1963. His distinguished service record gives him great credibility in claiming to have witnessed classified information during his military service. During his SHAPE assignment he claimed he was instructed to read

a detailed study of the activities of UFOs/ETs and how they might impact on Soviet-NATO relations which was published in 1964 with the title: "An Assessment: An Evaluation of a Possible Military Threat to Allied Forces in Europe." [5] In an interview, Dean described four extraterrestrial races described in 'The Assessment' as follows:

The group at the time, there were just four that they knew of for certain and the Greys were one of those groups. There was a group that looked exactly like we do. There was a human group that looked so much like us that that really drove the admirals and the generals crazy because they determined that these people, and they had seen them repeatedly, they had had contact with them, there had been abductions, there had been contacts. These people looked so much like us they could sit next to you on a plane or in a restaurant and you'd never know the difference. And being military and being primarily paranoid, that bothered the generals and the admirals a little bit. That the fact that these intelligent entities could be involved with us, walking up and down the corridors of SHAPE, walking down the corridors of the Pentagon. My God, it even dawned on a couple of them that these guys could even be in the White House! Of course, as I said, being paranoid in those years it really shook things up a little bit.

Two other groups, there was a very large group, I say large, they were 6-8 maybe sometimes 9 feet tall and they were humanoid, but they were very pale, very white, didn't have any hair on their bodies at all. And then there was another group that had sort of a reptilian quality to them. We had encountered them, military people and police officers all over the world have run into these guys. They had vertical pupils in their eyes and their skin seemed to have a quality very much like what you find on the stomach of a lizard. So those were the four they knew of in 1964. But I've been told by friends that are still active in military service that it's well over a dozen by now. [6]

Another 'whistleblower' source that refers to different extraterrestrial races is Dr Michael Wolf who claims to have worked for over two decades in a variety of positions in clandestine positions dealing with the extraterrestrial presence. Despite some continuing controversy over Wolf's whistleblower testimony and credentials, a number of UFO investigators who personally interviewed him found him to be coherent, consistent and credible. [7] In an interview, it was claimed that:

According to Dr. Wolf, several confederations of extraterrestrial civilizations are visiting us in loosely-coordinated fashion. These are: the Alliance (of human-looking ETs from the Altair Aquila system), the Corporate (of Greys from the Zeta Reticuli system), the Federation of Worlds (of unspecified races from many star systems), and the United Races of Orion (cultures from those star systems). Further, the Alliance is in affiliation with the Corporate and with the Federation of Worlds. The United Races of Orion are in affiliation with the Corporate, and, through them, with the Alliance and the Federation of Worlds. [8]

While Wolf claimed most extraterrestrial races are friendly, he said that a small number are hostile and behave as interplanetary renegades. [9] An individual 'contactee' who claims to have physically met with extraterrestrials, and spent time on extraterrestrial ships is Alex Collier. [10] Collier has been interviewed by the

investigative journalist and UFO researcher Paola Harris who despite her own initial reservations about his ground breaking claims, found him to be highly credible and coherent, and that much of what he says is consistent with her own independent research findings. [\[11\]](#) Furthermore, some of Collier's alleged conversations with extraterrestrials have led to astronomical claims which are later confirmed to be consistent with the latest quantum physics knowledge about esoteric topics such as the information that can be released by black holes. [\[12\]](#) This helps establish Collier's credibility as a 'genuine contactee' with relevant information to share on extraterrestrial races.

In a number of articles, which were compiled in his book, *Defending Sacred Ground*, Collier outlines in some detail the motivations and behaviors of a number of extraterrestrial races, an example of which is the following:

My understanding is that those from the Sirius A system are trying to be beneficial and assist, because they feel responsibility in that those who colonized Sirius B system were originally from Sirius A. Those from Sirius B have come here and really messed with our heads, and they are the ones who originally gave our government the Montauk technology. They have the same belief and brain patterns as those from Orion. Those from Tau Ceti are also very much involved. Nobody knows exactly what the Pleaidians are going to do yet, but I will share this with you. Those that live in the system around Alcyon - some of them cannot be trusted, as they have hidden agendas. Those from Teygeta, I am told, have a very clear objective: to maintain the idea of freedom. Just because a group is labeled "Pleaidians" doesn't mean they are here to help us. People confuse that issue. Know them by their works. Those from Cygnus Alpha are here. There is a group from Arcturus that is trying to help. Those from Procyon, who have been liberated, are trying to help. They're pretty gung ho." [\[13\]](#)

In this report, I will describe the main extraterrestrial races most commonly referred to in the literature who appear to have most strategic significance for the evolution and sovereignty of humanity, and their impact on a range of systemic global problems. I will distinguish between these extraterrestrial races on the basis of their belonging to one of either two distinct categories. The first category contains extraterrestrial races with which 'shadow governments' responsible for extraterrestrial affairs, have reached agreements with and even collaborated in a number of joint projects. [\[14\]](#) The extensive set of interlocking agreements between these races and the 'shadow government' in the U.S. and elsewhere suggests the existence of a military-industrial-extraterrestrial complex of interests. The military-industrial-extraterrestrial complex (MIEC) of interests currently controls most information concerning the extraterrestrial presence; and dominates government institutions around the planet, financial interests, the mass media, and is responsible for systemic global problems. [\[15\]](#)

There is also a second grouping of extraterrestrial races that lie outside of this web of clandestine agreements between extraterrestrial races and 'shadow governments'/national security agencies. Most 'contactees' report these races to be 'friendly' to human interests suggesting a more ethical

approach to the challenges confronting humanity as it prepares for the truth about the extraterrestrial presence and challenges posed by advanced extraterrestrial technology. It is this latter group which may prove to be the key in solving systemic global problems caused by the first group and the ‘shadow government’.

In this report, I will first describe the group of extraterrestrials that are part of a military-industrial-extraterrestrial complex that while mainly associated with the US, is global in scope. I will then describe the second group of extraterrestrials who have declined to be associated with the military-industrial-extraterrestrial complex. Distinguishing between extraterrestrial groups in this way helps bring to prominence the complex ethical-legal-political dimensions in understanding how different extraterrestrial races choose to cooperate or not with the military-industrial-extraterrestrial complex. For example, is a race of extraterrestrials ‘unfriendly’ if it chooses to become part of a ‘military-industrial-extraterrestrial’ complex thereby sharing technology with national security agencies in what may be described as ‘mutually beneficial projects’ that lead to secrecy, human rights violations and damage the global environment as a result of policies by the ‘shadow government’? Likewise, is a race of extraterrestrials ‘friendly’ when it refuses to be co-opted into a military-industrial-extraterrestrial complex thereby choosing to play a mainly observer role as a majority of the human race is exploited by human elites and extraterrestrials associated with the military-industrial-extraterrestrial complex? While a prima facie argument can be made to answer ‘yes’ to both questions, this should not disguise the deeper ethical-legal-political issues that emerge with the existence of a military-industrial-extraterrestrial complex and dealing with such questions.

Understanding the motivations and activities of the most significant extraterrestrial races will help greatly in answering the above questions; and will also help private individuals respond adequately to the dilemma over which extraterrestrial races contribute to global problems confronting humanity, and which extraterrestrial races can be worked with for the evolution and emancipation of humanity.

2. Extraterrestrial Races Cooperating with the Military-Industrial-Extraterrestrial Complex

Short Grays

The extraterrestrial races in this group include the ubiquitous Grays from the star system Zeta Reticulum and the Orion Constellation who are described in most of the abduction research and who figure prominently in reports of UFO crashes. Robert Dean included the Grays as one extraterrestrial described in NATO’s Assessment. [16] Col Phillip Corso who served in the Eisenhower administration and later headed the Foreign Technology Desk at the U.S. Army’s Research and Development Department, claims to have witnessed the body of a dead ‘Gray’ retrieved from Roswell in 1947. What he saw fit the classic description of a four foot tall extraterrestrial with a large head, large black almond shaped eyes, thin torso and spindly arms and legs. [17] A classic description is by Travis Walton who had an abduction experience with the Grays:

They were very short, shorter than five feet, and they had very large bald heads, no hair. Their heads were domed, very large. They looked like fetuses. They had no eyebrows, no eyelashes. They had very large eyes – enormous eyes – almost all brown, without much white in them. The creepiest thing about them were those eyes. Oh, man, those eyes, they just stared through me. [18]

Prominent UFO ‘abduction’ researchers such as Dr David Jacobs, Budd Hopkins and

the late Dr Karla Turner have provided detailed case studies of the abusive aspects of UFO ‘abductions’ .[19] These researchers found disturbing evidence of abusive treatment of individuals taken into UFO craft, of women being involuntarily subjected to a genetic program aimed at producing human-extraterrestrial hybrids, and of adult hybrids performing humiliating sexual activities on female abductees. Many researchers agree that the Grays are deeply involved in developing a hybrid human-Gray race that would be a suitable vehicle for the next step in human evolution. Researchers such as Jacobs believe this is a cause for alarm and poses a direct threat to human sovereignty. [20]

According to Col Corso, the Grays were involved in agreements with the Eisenhower administration that military officials saw as a form of ‘negotiated surrender’, where the Grays gained permission for abducting civilians and ‘expanding’ their biological program. [21] Clifford Stone distinguishes between ‘good’ and ‘bad’ extraterrestrials, and refers to the Grays as part of the ‘bad guys’ committing egregious abductions and that the U.S. government is unsure how to disclose this to the general public:

“The good guys [ETs] are, well, I like to refer to them as being nomadic. What you're talking about, about the non-intervention with other intelligent life forms is a universal law. The nomadics go along with that. The greys violated the universal law.... I think there is the effort for the good guys to make contact with the people within our government, but I think now what is happening is that the U.S. government learned in 1983 or thereabout that they are NOT dealing with the good guys, but really don't know what to do about it. [22]

The Grays are very active in human abductions, genetic experiments, monitoring humans through implants, mind control/programming, cloning and creation of hybrid humans. These contribute to systemic global problems such as humans traumatized by abduction experiences, genetically modified humans, implants for monitoring humans, and an overly passive population due to hypnotic mind control/programming.

Tall Grays/Whites

The second prominent race in this group of extraterrestrials are the ‘tall Grays’ described by Robert Dean as “a very large group, I say large, they were 6-8 maybe sometimes 9 feet tall and they were humanoid, but they were very pale, very white, didn't have any hair on their bodies at all.” [23] Tall Grays are described to originate from the Orion constellation, and according to Dr Arthur Horn play an overseeing role vis-à-vis short Grays:

The short greys are overseen within their own ranks by the taller seven to eight foot tall greys. These greys are the ones that actually carry out "diplomatic" missions, such as secretly negotiating treaties with heads of human governments. As mentioned the greys in general, and the small three to five foot greys in particular, have been likened to mercenaries. [24]

Support for the diplomatic role played by the ‘tall Grays’ comes from William Cooper, former Navy Intelligence Advisor, who claims he saw classified documents where the ‘tall Grays’ did negotiate agreements with the Eisenhower administration in meetings beginning in 1954.

Later in 1954 the race of large nosed Gray Aliens which had been orbiting the Earth landed at Holloman Air Force Base. A basic agreement was reached. This race identified themselves as originating from a Planet around a red star in the Constellation of Orion which we called Betelgeuse. They stated that their planet was dying and that at some unknown future time they would no longer be able to survive there. [25]

The meeting at Holloman Air force base in New Mexico has reportedly been the site of subsequent extraterrestrial meetings with tall Grays. In 1972-73, for example, the producers Robert Emenegger and Allan Sandler, had allegedly been offered and witnessed actual Air force film footage of a meeting involving tall Grays that occurred at Holloman Air force base in 1971. [26] It can be inferred that this 'tall Gray' race is a hybrid race that represents a fusion of human looking extraterrestrials and 'short Gray' biological material

When it comes to the abduction phenomenon, Dr David Jacobs concludes from an exhaustive analysis of sixty case studies in *Secret Life* that the tall Grays play an overseeing role in these. [27] The tall grays were found to be present in many abductions that Jacobs examined through hypnotic regression of abductees, and were in command of the short grays who performed most of the abductions

Recently a former U.S. Air Force serviceman published his memoirs where he disclosed extensive interactions with a variety of 'tall Grays' which he called 'tall Whites' due to their very white chalky skin and white hair. [28] Hall was stationed at Nellis Airforce base from 1965-67 where his duty was to use weather balloons for the Air Force from the Indian Springs location on the base. He describes his interactions with 'Tall Whites' beginning in 1965 and how he and other servicemen coped with their disturbing presence. Hall described a catalogue of incidents where the 'tall Whites' terrorised other military servicemen who didn't understand them, surprised them or threatened them in some way. Hall for example describes one 'tall White' who wanted to kill a military servicemen who accidentally hit her child with a stone and broke her arm. [29] The incident led to the 'tall White' threatening the servicemen with death if he didn't leave immediately and promise to never return

Other servicemen had similar negative encounters with the 'tall Whites' where their lives were threatened if they frightened 'tall White' children or didn't follow orders to the letter. [30] Significantly, these dire consequences were given approval by the Pentagon which monitored the tall Whites interactions with Hall and other military servicemen. Only Hall was spared this kind of intimidating treatment since he had the intelligence and courage to interact with the 'tall Whites' in a friendly way. Furthermore, he had apparently saved the life of a 'tall White' child and this led to him being befriended by the 'tall Whites' and incorporated him into a project to study human-tall White interaction. [31] This is where the Tall Whites display more positive qualities such as friendship and superior technical knowledge in their interactions with Hall

Significantly, the 'Tall Whites' began to be seen in the Mojave desert area in 1954 indicating that they were associated with the agreement(s) reached between the 'tall Grays' and the Eisenhower administration in 1954. [\[32\]](#) Hall further describes regularly seeing them in the presence of Airforce generals and other senior officials who recognised the ambassadorial status of the Tall White leader. [\[33\]](#)

The 'tall Grays' and/or 'tall Whites' represent a working model of how 'human' and gray biological material can be combined, and therefore play a lead role in assisting the short Grays in 'interacting' with humanity to develop a suitable hybrid species. The 'tall Grays/Whites' intimidate humans in a variety of reported interactions, and behave in an almost clinical manner reminiscent of a medical doctor conducting an experiment. The tall Grays/Whites are most involved in genetic experiments, creating a hybrid human-Gray race, mind control and diplomatic agreements with the 'shadow government'. Global problems that are influenced by the tall Grays/Whites include genetically modified humans, implants for monitoring humans, an overly passive population due to hypnotic mind control, influence over elite decision makers, the infiltration of national security agencies, and human rights abuses of civilians and military personnel

Reptilians

Another prominent extraterrestrial race in this group is described by Dean as humanoids with Reptilian characteristics that are 6-8ft tall. [\[34\]](#) Reptilian extraterrestrial races have been described to be both native to Earth, and also from other star systems. R.A. Boulay, has extensively analyzed a variety of historic sources and argued that there is sufficient evidence to support the conclusion that an ancient extraterrestrial race of Reptilians inhabited the Earth and played a role in the creation of humanity. [\[35\]](#) According to Thomas Castello, a former security official at Dulce, a highly classified underground facility involving a number of extraterrestrial races cooperating with a number of U.S. national security agencies and corporations, Reptilians indigenous to Earth work side by side with humans and other extraterrestrial races

... some 'reptoids' [Reptilians] are native to this planet. The ruling caste of 'aliens' ARE reptilian.... They were an ancient race on Earth, living underground.... Reptoids rightly consider themselves "native Terrans." Perhaps they are the ones we call the Fallen Angels - maybe not. Either way, we are [considered] the 'squatters' on Earth.... Since I was the Senior Security Technician at that base [Dulce], I had to communicate with them on a daily basis. If there were any problems that involved security or video camera's, I was the one they called. It was the reptilian "working caste" that usually did the physical labor in the lower levels at Dulce. [\[36\]](#)

According to Castello, the lower levels of Dulce involved extensive human rights abuses on captive civilians by joint extraterrestrial-human project leaders. William Hamilton, a well respected UFO researcher, researched both the Dulce base facility, and Thomas Castello's claims and credibility, and found them to be highly plausible: It may be unpalatable to digest or believe Thomas' story. In fact, it seems like part of a living nightmare. There is evidence that something strange does go on at Dulce. Does Thomas have the answer? There may be a terrible truth hidden behind the continuing phenomena of UFO sightings, abductions, and animal mutilations. Our

government intelligence agencies have had an ongoing watchful eye on all UFO activities for many decades now. This extraordinary phenomenon must have an extraordinary explanation. We may be only one outpost in a vast interstellar empire. [37]

In addition to Hamilton's conclusion about Castello's claims and credibility, I have written an extensive report of the Dulce base and found the evidence is very consistent with Castello's claims concerning human rights violations involving various extraterrestrials, U.S. national security agencies, and corporations. [38]

Linda Moulton Howe, an investigative journalist and UFO researcher, interviewed a 'contactee/abductee' by the name of Jim Sparx who claims to have met with a number of Reptilians indigenous to Earth. [39] According to Sparx, indigenous Earth based Reptilians have their own unique culture and have interacted with humanity for millennia, and both assisted humanity and used it as a resource. Sparx was told by the Reptilians that they have reached a number of secret agreements with national governments. [40]

Sparx's claims are very consistent with the experience of another 'contactee' Ole K., who claims to have met with a female Reptilian, Lacerta, and interviewed her on a number of occasions and distributed the interviews as the 'Lacerta Files'. According to Lacerta, **Reptilians who have evolved on Earth** are distinct to 'off-world' Reptilians who periodically visit the Earth. [41] While there is some debate over the credibility of Ole K, the testimony is coherent and consistent with Sparx and other research on the Reptilian species, and worth considering to better understand Reptilian activities. [42] According to Lacerta, the Reptilians disposition towards humanity is cautious since they view humans as a primitive species that is the 'property' of other extraterrestrial races that seeded the planet. The Earth based Reptilians, according to Sparx, 'harvest' humans in a way that does not challenge the human presence on the planet. This suggests that the Reptilians are following agreements 'imposed' upon them by more powerful off-world extraterrestrial races mentioned by Lacerta.

In sum, according to the whistleblower and contactee testimonies discussed thus far, it can be concluded that the indigenous Earth based Reptilians are involved in activities such as manipulating human elites and financial institutions, influencing religious belief systems, militarism and altering the history of human civilization. The systemic global problems the (indigenous) Reptilians contribute to include covert human rights abuses, elite corruption and domination, control the media and corporations, divisive religious dogma, historical amnesia and a culture of violence.

Draconians

The most controversial 'whistleblower'/'contactee' reports concern an off-world 'master Reptilian race' described as the **Draco-Reptilians** who are claimed to originate from the Alpha Draconis star system which is 215 light years distant and was formerly the pole star. [43] According to Alex Collier, the Draconians or Dracos have two main castes, the first of which is a warrior caste that are in the 7-8 foot range, who are apparently feared throughout the galaxy for their fighting abilities. [44]

The second caste are a 'royal line' of Draco Reptilians that he describes as 'Ciakars' which, because of their alleged size, psychic ability and alleged wings, might be confused as the proverbial Dragon if Collier is correct:

The Draconians are a very large reptilian race, otherwise known as "the Dracs". There is royal line of the reptilian race called the Ciakar. They range from 14 to 22 feet tall and can weigh up to 1,800 pounds. They do have winged appendages and they are awesome beings. They're extremely clairvoyant and extremely clever, and they can also be extremely sinister. [45]

Collier claims that according to the Draconian world view, they were the first intelligent species in the galaxy and seeded many worlds with their biological offspring. [46] The Draco Reptilians therefore see themselves as the natural rulers of Reptilian 'controlled' worlds such as Earth, and view humans as an inferior species. The Draconians are interested in harvesting the Earth's resources while ensuring that these resources are efficiently exploited.

There appears to be a strict hierarchy involving the Draco-Reptilians and other extraterrestrial races so far described in this group. According to Thomas Castello, Reptilians from Alpha Draconis, the 'Dracos', are in command of the Earth based Reptilians. [47] Earth based Reptilians are in turn in command of the 'tall Grays', who are in command of the short Grays. Interestingly, Castello also describes the Draconian ruling caste as Ciakars who are winged and therefore could be easily confused as dragons. Jefferson Souza, a Brazilian UFO researcher confirms the existence of a hierarchy involving the Grays and a Master Reptilian race. [48]

All of the extraterrestrial races described above appear to have a number of interlocking agreements between them that have a common interface in the agreements between U.S. national security agencies and the Grays. The Draconians form the (hidden) apex of the military-industrial-extraterrestrial complex (MIEC) that controls information and technology related to the extraterrestrial presence. The Draconians appear to be very active in controlling human elites, institutions and financial systems; promoting militarism; creating a climate of scarcity, struggle and insecurity; harvesting humans and manipulating Grays and other Reptilian races. Draconian activities contribute to global problems such as concentrated wealth, corrupt elites and institutions, ethnic/religious violence, human rights abuses, a culture of violence and terrorism, and the drug trade and organized crime.

In addition to the above extraterrestrials, there are a number of human looking extraterrestrials from Sirius B which is part of a binary star system. Alex Collier describes extraterrestrials from Sirius B as follows:

The cultures around Sirius B have a very controlling vibration. Some of the humans are red, beige and black-skinned. The planets around Sirius B are very arid and generally occupied by reptilian and aquatic-type beings... The society is more obsessed with political thought patterns instead of spiritual attributes. [49]

Amazingly, an African tribe called the Dogon, had an intricate understanding of this elliptical orbit of Sirius B around the main star, Sirius A. This knowledge was apparently given to their ancestors by advanced extraterrestrials from the Sirius star

system. [50] The Dogon described the **Sirians** as Amphibians from a planet around Sirius B, which is consistent with Collier's claim that one of the planets around Sirius B is "generally occupied by reptilian and aquatic-type beings." [51] The racial characteristics of the humans from Sirius B suggests that these are descendents from the star system Vega which will be described later.

Preston Nichols claims to be a 'whistleblower' who participated in a clandestine project at Montauk that involved a number of extraterrestrial groups. An independent investigator found Nichols "to be a very reliable and solid witness and that for myself, his information checked out across the board--right down the line; to the extent that it was at all possible to verify particular information." [52] The humans from Sirius B, according Nichols played a role in providing exotic technology such as time/inter-dimensional travel to clandestine government agencies involved in both the Philadelphia Experiment and Montauk Project. [53]

Alex Collier explains the role of this group of extraterrestrials in technology exchanges with national security agencies: "those from Sirius B have come here and really messed with our heads, and they are the ones who originally gave our government the Montauk technology." [54] This exotic technology was provided for the purpose of encouraging national security agencies to develop offensive military capabilities vis-à-vis possible extraterrestrial threats. This technological assistance even involved biological weapons research according to Collier who claims: "the biological material that has been added to the Ebola [virus] was given to the government by the humanoids from Sirius B. I don't know if it was one of their viruses that they picked up somewhere or whether it is actually from them." [55]

According to Daniel Salter another whistleblower with long military service which included a period in the National Reconnaissance Office, extraterrestrial related issues drive human-extraterrestrial cooperation in a clandestine organization in the National Security Agency called the Advanced Contact Intelligence Organization (ACIO). [56] According to leaked information from an alleged whistleblower on a popular website called the Wingmakers, information which Salter affirms to be accurate, ACIO is cooperating with a consortium of extraterrestrials to develop sophisticated time travel technologies for future extraterrestrial threats. [57]

According to the Wingmakers website:

Blank Slate Technology or BST ... is a form of time travel that enables the re-write of history at what are called intervention points. Intervention points are the causal energy centers that create a major event like the break-up of the Soviet Union or the NASA space program. BST is the most advanced technology and clearly anyone who is in possession of BST, can defend themselves against any aggressor. It is, as Fifteen [leader of the Labyrinth] was fond of saying, the freedom key. Remember that the ACIO was the primary interface with extraterrestrial technologies and how to adapt them into mainstream society as well as military applications. We were exposed to extraterrestrials and knew of their agenda. Some of these extraterrestrials scared the hell out of the ACIO. [58]

It is likely that this consortium of extraterrestrials includes those from Sirius B who allegedly provided some time travel/inter-dimensional travel technology for the Montauk Project, and assistance in researching biological weapons.

The Sirians do not appear to be closely connected to the Gray or Reptilian groups that have been the main extraterrestrial groups involved in technology transfers. The Sirian interaction with the shadow government appears to have been an independent initiative designed to provide an alternative source of extraterrestrial technology. Nevertheless, Collier's description of humans from Sirians B co-habiting their worlds with Reptilians suggests a deep historical experience with Reptilians. This suggests that concern with the Reptilian/Gray technology exchange agreements may have been a major factor in the Sirians efforts.

In conclusion, this human extraterrestrial group from Sirius B is mainly active in technology exchange programs that have assisted the government in the acquisition of various technologies that have had military applications. This appears to be aimed at promoting military cooperation to potential extraterrestrial threats against Earth, both through subversion and external intervention. The global problems that the humanoids from Sirius B have contributed to include: covert weapons research, use of exotic technologies, and abuse of civilians used in time travel experiments.

Finally, there is reported to be a race of giant humanoids who have played a role in seeding the Earth with humans, and who periodically return to the Earth to determine how effectively Earth's resources have been utilized by humanity and those extraterrestrial races playing a role in 'managing' humanity. These are described by the Sumerians as the **Anunnaki** from the world 'Nibiru' in the extensive cuneiform texts translated by Zecharia Sitchin. [59] These giant humanoids apparently form the chief 'founding' extraterrestrial race that were the gods described in ancient mythologies and religions. [60] According to the accounts of the Sumerians, the Anunnaki's chief god is Anu and the pantheon of Anunnaki as described by Sitchin form key figures in the hierarchy that secretly oversee management of humanity and the planet Nibiru which periodically returns to the vicinity of Earth. According to Alex Collier, this is how the Anunnaki or 'Nibiruans' originated as a species:

A very long time ago, colonies on Sirius B and the Orion Group were having trouble with each other. In order to bring peace, there was a marriage between members of each group. The woman came from the Orion Group, where the hierarchy includes a queen – the matriarchal paradigm. The male was from Sirius B. Both members were considered royalty of their respective line. When these two came together in marriage, their offspring had the genetics from both lines. Because of these genetics, the new race that was created was given the name "Nibiru", which I am told by Moraney [Andromedan Counselor] in the Orion tongue means "divided amongst two". This is who they literally are – a cross between those from Sirius B and a race from the Orion system. They formed a new "tribe" which has continued to flourish for at least hundreds of thousands of years. So, they are a tribe that has become a race. [61]

It appears that the Anunnaki's mode of operation is to leave 'primitive' species such as humanity to flourish on the planet's surface while more advanced races such as the Reptilians form a kind of 'planetary management team' to harvest humanity in a way that serves the long term interest of the Anunnaki who return periodically to assess their 'human experiment'. It therefore appears that the

Anunnaki form a kind of regulatory agent to ensure that the Earth's resources, and humanity in general, are responsibly 'managed'.

The Anunnaki have a relationship with the Earth based Reptilians based on whatever historical agreements they reached over humanity will be managed. It is also likely that the Anunnaki have some form of agreement with the Draconians over how the latter intervene in worlds where the Anunnaki have established 'human experiments'. Finally, it is also likely that some members of the Anunnaki have remained secretly on Earth and therefore have played a role in the creation of elite human organizations to manage human affairs. [62] These 'agreements' and/or secret control of human elite groups indirectly make the Anunnaki a part of the military-industrial-extraterrestrial complex.

According to Sergeant Dean, the Anunnaki are major players in human affairs and this is likely to become more significant as their home planet, Nibiru, returns to the vicinity of Earth. [63] It is the apparent return of the Anunnaki that appears to be a wild card that concerns national security agencies that are unaware of how this race of extraterrestrials will impact on global humanity and the military-industrial-extraterrestrial complex that has been created to manage extraterrestrial affairs. [64] The main activities of the Anunnaki are to influence the long term human evolution through elite groups, systems and institutions, and by influencing human consciousness. They appear to be in competition with the Draconians for control of Earth. The main global problems they contribute to include elite domination, religious fundamentalism, a patriarchal global culture, and a culture of violence.

The main activities of the various races that cooperate with the Military-Industrial-Extraterrestrial Complex can now be summarized as follows in **Table 1**:

Extraterrestrial Races Cooperating with the Military-Industrial-Extraterrestrial Complex

ET Races	Main Activities	Resulting Global Problems
'Short Grays' (Zeta Reticulum & Orion)	Abducting civilians, genetic experiments, mind programming, monitoring humans through implants, cloning and creation of human-Gray hybrids.	<ul style="list-style-type: none"> • Traumatized 'abductees', • genetically modified humans • humans monitored with implants • mind programmed 'abductees'
'Tall Grays-Whites' (Orion)	Genetic experiments, creating a hybrid human-Gray race, mind control and diplomatic agreements with the 'shadow government'.	<ul style="list-style-type: none"> • genetically modified humans • humans monitored with implants • mind programmed 'abductees' • political elites compromised • national security agencies infiltrated • human rights abuses
Indigenous Reptilians (Earth)	Manipulating human elites, institutions & financial systems, influencing religious belief systems, militarism & removal of history of human civilization.	<ul style="list-style-type: none"> • human rights abuses • elite corruption & domination • control of the media & corporations • divisive religious dogma • historical amnesia

		<ul style="list-style-type: none"> • culture of violence
Draconian Reptilians (Alpha Draconis)	Controlling human elites, institutions & financial systems, militarism, creating a climate of scarcity, struggle and insecurity, harvesting humans, manipulating Grays and Earth Reptilians.	<ul style="list-style-type: none"> • Concentrated global wealth & poverty • Corrupt elites & institutions • ethnic/religious violence, • human rights abuses • culture of violence & terrorism • drug trade & organized crime
Sirians (Sirius B)	Participate in technology exchange programs that promote military cooperation to potential extraterrestrial threats.	<ul style="list-style-type: none"> • Covert weapons research • use of exotic weapons • abuse of civilians in time travel experiments.
Anunnaki (Nibiru)	Control long term human evolution through elite groups, systems and institutions, and manipulating human consciousness. Compete with Draconians for control of Earth.	<ul style="list-style-type: none"> • Elite manipulation • religious fundamentalism • patriarchal global culture • culture of violence

3. Extraterrestrial Races Outside of the Military-Industrial-Extraterrestrial Complex

On February 20, 1954, a delegation of ‘human looking’ extraterrestrial races met with the Eisenhower administration in an unsuccessful effort to reach an agreement on the US’s thermonuclear nuclear weapons program. [65] The apparent stumbling block was that these extraterrestrial races were not willing to provide technology that might be used by the military-industrial interests that dominated the Eisenhower administration and set the tone for subsequent extraterrestrial – human dialogue. The principled opposition of this group of extraterrestrials to being co-opted into an emerging military-industrial-extraterrestrial complex (MIEC) marks an important indicator of a large grouping of ‘human’ extraterrestrial races who lie outside of the web of interlocking interests that make up the MIEC in the U.S. and elsewhere on the planet.

This second category of extraterrestrial races is primarily ‘human’ and can easily integrate with human society in the manner described by Dean and others where they can be indistinguishable from the rest of humanity. [66] These races are described to be from star systems such as Lyra, Vega, Pleiades, Sirius, Procyon, Tau Ceti, Ummo, Andromeda and Arcturus who have provided some of the genetic material for the seeding of humanity on Earth. [67] According to Alex Collier, a total of 22 extraterrestrial races have provided genetic material for the ‘human experiment’. These include Reptilian, Gray and Anunnaki races described earlier as well as those races in this second group which Collier describes as ‘benevolent’:

That we, as a product of extraterrestrial genetic manipulation, are possessors of a vast gene pool consisting of many different racial memory banks, also consisting of at least 22 different races. Because of our genetic heritage, and because we are spirit, the benevolent extraterrestrial races actually view us as being royalty. [68]

As a result of this genetic linkage, the extraterrestrials in this group outside of the MIEC apparently view humanity in much the way a protective parent might view an adolescent son/daughter in a dangerous environment. [69] The vital interests of races in this category are to ensure that global humanity evolves in a responsible way without endangering both itself and the greater galactic community of which it is part.

There are two parts to this grouping of extraterrestrials. The first are 'extraterrestrials' that have historically inhabited the Earth's subterranean dwellings, and are described as remnants of ancient human civilization that followed a separate evolutionary path to surface humanity. The second are extraterrestrials that have 'off-world' origins but have humanoid features to the extent that some of them can easily intermingle with the rest of humanity without being easily identified.

Telosians

The subterranean 'extraterrestrials' are described to be remnants of previous human civilizations on the Earth's surface such as Lemuria and Atlantis and are thus genetically related to humanity. The most famous description of one of these ancient races is found in the posthumously published 'diaries' of Admiral Richard Byrd who describes a secret expedition to the North Pole where he was taken into the subterranean dwelling of an advanced race with Nordic physical characteristics. He was shown some of the wondrous technology of this society and also met the leader of this advanced subterranean race who allegedly said:

'We have let you enter here because you are of noble character and well-known on the Surface World, Admiral' ... you are in the domain of the Arianni, the Inner World of the Earth.... Admiral, I shall tell you why you have been summoned here. Our interest rightly begins just after your race exploded the first atomic bombs over Hiroshima and Nagasaki, Japan. It was at that alarming time we sent our flying machines, the "Flugelrads", to your surface world to investigate what your race had done.... You see, we have never interfered before in your race's wars, and barbarity, but now we must, for you have learned to tamper with a certain power that is not for man, namely, that of atomic energy. Our emissaries have already delivered messages to the powers of your world, and yet they do not heed. Now you have been chosen to be witness here that our world does exist. You see, our Culture and Science is many thousands of years beyond your race, Admiral.' [70]

While there continues to be controversy over the veracity of Admiral Byrd's diaries, there are a number of reported encounters with representatives of an advanced subterranean human race. A large subterranean city called Telos is argued to lie below Mt Shasta, California and has been described by individuals who have either physically traveled to this city and witnessed it, or those who claim to have telepathically communicated with the occupants of this city. Prominent UFO researcher, William Hamilton, claims to have met representatives of Telos who described to him the advanced technology and structure of Telos and their connection to the former civilization of Lemuria. Hamilton described a Telosian, 'Bonnie', and her family as follows:

Bonnie, her mother (Rana Mu), her father (Ra Mu), her sister Judy, her cousins Lorae

and Matox, live and move in our society, returning frequently to TELOS for rest and recuperation. Bonnie relates that her people use boring machines to bore tunnels in the Earth. These boring machines heat the rock to incandescence, and then vitrify it, thus eliminating the need for beams and supports. A tube transit tunnel is used to connect the cities that exist in various subterranean regions in our hemisphere. The tube trains are propelled by electromagnetic impulses up to speeds of 2500 mph. One tube connects with one of their cities in the Matto Grosso jungle of Brazil. They grow food hydroponically under full-spectrum lighting with their gardens attended by automatons. The food and resources of Telos are distributed in plenty to the million-and-a-half population that thrives on a no-money economy. [71]

According to the Dianne Robbins, who claims to have telepathically communicated with the Telosians, they are the remnants of the Ancient Lemuria who made Mt Shasta their home after the destruction of their continent. [72] Originally numbering 15,000, this Lemurian remnant has apparently flourished in the underground caverns of Mt Shasta and grown to a population of 1.5 million where psychotronic technologies, involving crystals and the highly developed mental abilities of the Telosians, are used to maintain an incredibly advanced society that interacts with extraterrestrials from a number of star systems. The Telosians are reported to specialize in maintaining human longevity, and integrating harmonious technologies and belief systems for surface based humans. The Telosians and other subterranean 'extraterrestrials' seek to curtail the most damaging aspects of human-extraterrestrial technological agreements while assisting in the evolutionary growth in human consciousness. The main activities of the Telosians can be inferred to be in helping surface humanity learn of its ancient Earth history, restore human longevity, changing unhealthy belief systems and protecting the environment. The global solutions provided by the Telosians include: environmental protection; promoting bio-diversity; restoring human health and longevity; and recovery of lost historical knowledge.

The 'off-world' human looking extraterrestrial have been claimed to have provided some of the genetic material for human evolution, and that many of these extraterrestrials have allowed some of their personnel to incarnate as 'star seeds' on Earth in human families. These 'star seeds', 'star children' or 'star people' are described by Brad and Francie Steiger as individuals whose 'souls' were formally incarnated on the worlds of other star systems and then traveled to Earth and decided to incarnate here in order to boost the evolutionary development of humanity. [73] Most of humanity would consider this group of extraterrestrials to be 'benevolent' as described by 'contactees' such as **George Adamski, Orfeo Angelucci, George Van Tassell, Howard Menger, Paul Villa, Billy Meier and Alex Collier** who each explain the nature of their voluntary interactions with these human looking extraterrestrials. [74] These contactees often provide physical evidence in the form of photographs, film and/or witnesses of their contacts with extraterrestrial races. The most extensively documented and researched contactee is Eduard 'Billy' Meier who provided much physical evidence for investigators. These off world human extraterrestrial races appear to have different 'specialties' as a result of unique

histories and planetary migrations due to galactic upheavals and conflicts. It is worth exploring the main activities of each race to understand how they either currently interact with humanity or how they may better interact with humanity to address global problems.

It is appropriate to begin the discussion of these ‘off world’ extraterrestrial races and their main activities by focusing on a star system that has been described as the source for the spread of human civilization in the Milky Way galaxy, the constellation of Lyra. One of the first ‘contactees’ to describe Lyra was Billy Meier who received much public attention as a result of his alleged visits from Pleiadians/Plejarans from 1975 to 1986 which he supported with material evidence that continues to confound those skeptical of Meier’s claims. [75] Comprehensive investigations by a number of individuals and organizations found that Meier’s evidence was not fabricated and therefore constituted significant support for his testimony of extraterrestrial contact. [76] Due to the amount of physical evidence he had provided over the years, Meier has gained great credibility, and the consistency and coherence of his testimonies suggest that he is indeed an important spokesperson for an extraterrestrial race.

Meier was told by his Pleiadians [Plejadians] contacts of the star system of Lyra and its human inhabitants:

The "Swiss" Plejadians have described their ancient ancestry, and consequently ours, as originating (before the Plejades) in a far sun-system in a star group near what we now know as the Ring Nebula of Lyra, for which we have called them Lyrians in the same manner as we refer to the human beings from what we call the Pleiades. These early **Lyrians** in their numerous migrations in their great Space Arks went to many other star systems and found suitable habitations, and put down colonies, such of which flourished and eventually launched their own space travelers. [77]

Meier further reported of a physical contact with a Lyran ship in 1977 where the Lyrans described their world and the other star systems with whom they cooperated. [78] Alex Collier describes the start of the Lyran civilization as revealed to him by extraterrestrials from Andromeda:

Based on the age of the Suns and the planets in our galaxy, it was decided that the human life form was to be created in the Lyran system. The human race lived there for approximately 40 million years, evolving. The orientation of the human race in Lyrae was agricultural in nature. Apparently, we were very plentiful and abundant, and lived in peace. [79]

The Lyrans possess Nordic features and are quite possibly the ‘Elohim’ described in religious traditions both on Earth and around the galaxy. Due to the Lyrans role in the genesis of the human presence in the galaxy, the Lyrans can understandably be argued to have the most detailed understanding of human origins and galactic history. They can be described as the ‘Galactic historians’ for the human species. It can be inferred that the Lyrans help in disseminating the truth about the evolution of human races in the galaxy, and have a deep understanding of galactic human culture and of the ‘human spirit’. The Lyrans have been further described as follows:

Those from Lyra have an affinity for origins and ancient histories. So they would be useful to you to understand the past in order to transform it. As you understand your past and your origins you may be able in consciousness to go back, pattern by and pattern, peel off the layers of the onion, and find your true nature. They would be excellent guides in this process, this psychological process for humanity, of understanding its motivations and its history and how it came to be. [\[80\]](#)

In conclusion, the Lyrans' main activities are in disseminating the unique history of the human race in the galaxy, and assisting in understanding human motivations and potentials. The global solutions the Lyrans provide include accurate information about human history, understanding galactic history, discovery of the human essence, diplomacy and conflict resolution, and global education.

According to Billy Meier, another race of extraterrestrials that physically contacted him were from the Vega star system within the constellation of Lyra. [\[81\]](#) The **Vegans** were a darker or 'blue' skinned group of humans, and were likely the 'blue race' of advanced humans mentioned in various Vedic texts, and from whom the Hindu gods Vishnu and Krishna derived. [\[82\]](#) The Brazilian contactee, Jefferson Souza, claims that he met the Vegans of Lyra, who he described as looking very similar to natives of India. [\[83\]](#) According to Alex Collier, Vega was the first star system in Lyra to be populated by humans. [\[84\]](#)

In addition to the Nordic looking humans from Lyra, the Vegans played an important colonising role throughout the Galaxy.

The first extraterrestrials who came to Earth were ... humans from worlds that exist within another dimension in the area of the Lyra and Vega systems. The first Lyrians, together with the Vegans, came to Earth initially 22 million years ago. Their stay here was very brief and they continued their travels to other star clusters and planets. Their history is largely obscure, even though assault groups occasionally continued to return to Earth. Approximately 389,000 years ago, several million Lyrians and Vegans again left their native worlds, entered our order of space and time in this dimension, and came to Earth where they mingled with the Earthlings. [\[85\]](#)

Significantly, the results of the Vegans and Lyrans interbreeding with humans paralleled events described in the Book of Enoch where the 'Nephilim' intermarried with humans and produced a race of giants that eventually died off. [\[86\]](#) Meier describes these events as follows

They procreated in the normal manner and through the manipulation of genes by genetic engineers. The results of the genetic engineering produced beings that were part human, part animal, and included giants, titans, and other creatures. In the course of hundreds and thousands of years these creatures were displaced once again, and eventually died out because they could not reproduce or because conditions for their life forms proved fatal for them. [\[87\]](#)

Further paralleling events described in the Book of Enoch where the leaders of the Nephilim were

punished for their activities on Earth, Meier describes how the ringleaders of the Vegans and Lyrans were responsible for numerous transgressions against the native peoples of Earth and other worlds:

The many millions of Lyrians and Vegans, who had left their native worlds, were headed by 144,207 leaders and sub-leaders, etc., who reigned over their followers in a rather hierarchic manner. The leaders also transferred this behavior to Earth humans with whom they had intermingled in the past to create human descendants of various types. These 144,207 leaders and their subordinates were, indeed, the ringleaders who were essentially responsible for the misdeeds, false teachings, and false religions which were absorbed and imitated by humans on Earth. Not everything the leaders brought to Earth was evil, false, or criminal, however; many valuable items and ideas were presented to the Earthlings with regard to crafts, professions, philosophies, ways of thinking, medicine, technology, and many other things. [88]

According to Lyssa Royal, the Vegans and Lyrians were strategic competitors when it came to the colonising of other worlds, and eventually began a devastating civil war in the Lyra constellation – the Lyran wars. [89] Alex Collier also refers to a devastating galactic war in Lyra but its cause was external rather than an internal civil war between the Lyrans and the Vegans. [90] According to Meier, the Vegans returning to Earth in the present era, are attempting to assist humanity, atone for past mistakes and to assist Vegan starseeds. [91] Like the Lyrans, the global solutions the Vegans provide include accurate information about human history and the Vegan heritage, understanding galactic history, discovery of the human essence, diplomacy and conflict resolution, and global education.

Pleiadians

Billy Meier further described how the Pleiadians, descendents of the Nordic looking Lyrans, had migrated between a number of star systems before finally settling in the Pleiades constellation:

The ancient history of the early Pleiadian ancestors in another home sun system was also described and how they came to travel to the Pleiades. A much earlier migration to this solar system is also described and how and why it failed. The one third survivors of the Pleiadian ancestors' original planet, after its devastation, evolved a new technology, and designed and built the great-spacer evacuation arks in just 900 years, and began to launch them everywhere for many hundreds of years more. The extraterrestrials visiting Switzerland are the descendants of one of those space arks which occupied one of the three planets engineered for human habitation, in one of the sun-systems in what we call the Pleiades today. They have experienced great gains and great losses many times over since that time. In a very real sense, we are descendants of their earliest colonists attempting to settle in this solar system, together with an assortment of aborigines and human exiles from a number of places. [92]

The particular star system from which Meier's **Pleiadians** originate is Taygeta and the main planet is Erra. [93] The Pleiadians from Taygeta identified Meier as one of their chosen 'representatives' with a mission to bring the truth of the extraterrestrial

presence to humanity. [94] Semjase, the Pleiadian female who made contact with Meier, described the Pleiadians as follows:

We are neither guardians of Earth beings nor God-sent angels or similar. Many persons suggest we are watching over Earth and her beings and would control their fates. This is not true, because we only perform a self-selected mission which has nothing to do with supervising or regulating Earth fates. Thus it is wrong to expose us as superterrestrial messengers and guardians. [95]

The Pleiadians identified a key aspect of their mission is to warn humanity of the Grays which they described as follows:

33. There are also different life forms that have acquired much knowledge and have freed themselves from their environment. They travel through space and occasionally come to Earth.

34. Many of them are rather unpleasant creatures and live in a type of barbarism that frequently is nearly as bad as the terrestrials.

35. You should be aware of them because they often attack and destroy everything that gets in their way.

36. Many times they have even destroyed whole planets or forced their inhabitants into bondage.

37. It is one of our missions to warn the people on Earth of these creatures.

38. Let this be known to the Earth people because the time is approaching when a conflict with these degenerate human creatures [Grays] becomes unavoidable. [96]

According to Collier, the Grays and Pleiadians are involved in armed skirmishes in the solar system and other systems such as Sirius B. [97] Other key aspects of the Pleiadian mission according to Meier, are to assist in the uplift of human consciousness and to promote the unity of religion. [98] Significantly, the Pleiadians were dismissive of the claims of many other contactees such as Adamski, and thereby implied some exclusivity in relating the truths and dynamics of the extraterrestrial presence. [99] Interestingly, Collier claimed that some Pleiadians groups such as those from Alcyone operate with 'hidden agendas', while those from Teygeta (e.g., Meier's Pleiadians) are described as genuinely assisting humanity. [100] Despite the possible 'hidden agenda' of some Pleiadians, most testimony and evidence points to Pleiadians in general having positive interactions with humans, and that they do much to assist in the elevation of human consciousness and assisting humanity in finding freedom from Gray/Reptilian influence. [101] In conclusion, the main activity of the Pleiadians appears to be helping humanity find freedom from oppressive structures through education and consciousness raising. The Pleiadians can assist in find global solutions such as universal human rights, participatory democratic systems, the evolution of human consciousness and global education.

One of the many human space colonies spawned by the Lyrans was eventually established on planets in the Rigel solar system in the Orion Constellation. At some point in its history, Rigel with its Nordic population presumably underwent a destructive civil war and was taken over by Grays. According to George Andrews, a Nordic from the star system of Procyon, Khylla, revealed much information about the Rigelians, Procyons and Grays to a human contactee whose information was

consistent with other sources and Andrews concluded was credible. [102] The contactee described Khyla as follows:

Khyla looked like a tall handsome human, slender but muscular, masculine yet ethereal. He appeared either naturally or artificially to have black around his eyes, almost like kohl [coal]. His face was close to exquisite, but definitely masculine. He had a gaunt face with high cheekbones and piercing cobalt-blue eyes. He had fine blond hair that was almost shoulder-length. He had a muscular neck. His skin was pale flesh color, with a whitish overtone. It is hard to gauge his exact height because of the circumstances under which our encounter occurred, but it was somewhere between six and seven feet. [103]

Andrews writes about the history of Rigel as revealed by Khyla to the contactee:

The ancestors of the short Grays were once tall Blonds. The Great War took place.... Before the great war, Rigel was a vast empire, which had been the source of most galactic seeding. All **Rigelians** were tall Blonds. A colony had already been established on Procyon. The Great War was a civil war of Rigelians versus Rigelians, and lasted the equivalent of three Earth centuries. A group of Rigelians who realized that the Great War was about to break out took off for the Procyon colony in crude, clandestinely built ships. ... They were the only Rigelians to escape the cataclysmic devastation. All those who had remained on Rigel were transformed into short Grays. [104]

It appears that Rigel underwent a planet wide nuclear war and environmental collapse that led to life in underground shelters. It is very unlikely that the transformation of Nordic Rigelians involved them becoming 'short Grays' whose genetic material is generally accepted as inferior to human races such as the Nordics. The genetic mutation process would have taken much longer than the three centuries mentioned. It is more likely that the surviving Rigelian Nordics were incorporated into a planet wide genetic hybridization program by 'short Grays' from a star system such as Zeta Reticulum who had covertly infiltrated and undermined Rigel prior to and/or during the Great War on Rigel. The short Grays most likely succeeded in genetically engineering the 'Tall Grays' using genetic material from the Nordic survivors who were too weak to resist the Gray hybridization agenda. These Rigelian 'tall Grays' subsequently play a key role in diplomatic initiatives by the Grays and serving as a genetic model for new human-Gray hybrid races that allegedly represent the best of both species.

Most of the Rigelians who fled their planet traveled to the star system of Procyon to restart their civilization. Procyon is a binary star system about 11.4 light years from Earth, and it was apparently the fourth planet in this system that the Rigelians established their new colony. [105] According to Andrews, the colony of Procyon flourished until it became embroiled in sinister effort by the Grays that now populated Rigel to subvert Procyon. Khyla described the process adopted by the Grays in their subversion of Procyon:

The Grays began to visit us, first a few as ambassadors, then as specialists in various domains where their expertise could be useful to us, as participants in different

programs that involved mutual collaboration, and finally as tourists. What had begun as a trickle became a flood, as they came in ever-increasing numbers, slowly but surely infiltrating our society at all levels, penetrating even the most secret of our elite power groups.... Just as on your planet they began by unobtrusively gaining control over key members of the CIA and KGB through techniques unknown to them, such as telepathic hypnosis that manipulates the reptilian levels of the brain, so on Procyon through the same techniques ... they established a kind of telepathic hypnotic control over our leaders. Over our leaders and over almost all of us, because it was as if we were under a spell that was leading us to our doom, as if we were being programmed by a type of ritual black magic that we did not realize existed. [\[106\]](#)

Khyla went on to describe the eventual take over of Procyon by the Grays and the enslavement of most Procyons that did not escape. Using advanced time travel technology which involved ‘multidimensional consciousness’, something which the Grays apparently could not duplicate due to their degraded genetic bodies, a significant number of Procyons were able to escape and began a liberation war from the ‘remote corridors of time’. Significantly, the Procyons describe how some of their resistance techniques would be relevant to the situation on Earth:

... it would be suicidal to attempt to fight the Grays directly with the weapons now at your disposal. One must be rational in attempting to fight back, and understand the proper way to proceed. Your own consciousness is the most potent weapon that is available to you at the present time. The most effective way to fight the Grays is to change the level of your consciousness from linear thinking to multi-dimensional awareness.... They have the technology to throw your planet out of orbit, but there is one key ability that you have and they do not have: the ability to hold in mind imagery that inspires an individual to realize his or her direct personal connection to the source of all that is... That is your key to victory. [\[107\]](#)

According to Alex Collier, the **Procyons** have recently liberated their world from Gray influence and he describes the Procyons as currently “gung ho” when it comes to dealing with the Grays. [\[108\]](#)

In conclusion, the Procyons main activity is in effectively resisting the extraterrestrial subversion by developing a ‘multidimensional consciousness’, using mind imagery to protect oneself from extraterrestrial mind control, and monitoring unfriendly extraterrestrial activity. The global solutions that the Procyons can assist in include exposing extraterrestrial subversion, helping end global secrecy of the extraterrestrial presence, promoting multidimensional consciousness, deprogramming mind control, promoting universal human rights, and developing the internet and global communication.

Tau Cetians

Other human populated worlds are apparently the star systems of Tau Ceti and Epsilon Eridani. The researcher, Frank Crawford, interviewed a number of individuals who had physical contact with the **Tau Cetians**. [\[109\]](#) The first and most significant was an alleged whistleblower who participated in crash retrievals of

UFOs; a live occupant was captured and interrogated by U.S. national security officials from a crash near Phoenix, Arizona in 1961. 'Oscar', the pseudonym used by the whistleblower, described to Frank Crawford the origins of the captured extraterrestrial who was nicknamed 'Hank'

It was later confirmed by Hank that the stars of origin of his people were Tau Ceti and Epsilon Eridani. In later sessions Oscar discussed some reasons for the presence of the aliens. He said the[y] do not like the situation with some of the small grey aliens. He corrected us when we used the term 'grey' and said that they are actually white. The Tau Cetians feel that the abductions being carried out by some of the Greys are a great injustice to humanity. 'They are a parasitic race that has and is preying on human civilizations throughout the universe, Oscar relayed. He added that our government's involvement with the grays is very dangerous and out of control....The Tau Cetians have been preyed upon by these aliens before and they are working with other races and communities that were also victims.... (Oscar) wants people to know that if they are contacted by the Tau Cetians (humans such as he described) to not be afraid because they are here to help. [\[110\]](#)

The revelations by 'Hank' suggest that the Tau Cetians are present to help deal with the covert strategies and activities of the Grays. They in particular are very concerned about the nature of the agreements reached with them by the U.S. 'shadow government', and in helping individual 'abductees'. According to 'Oscar' the Tau Cetian, 'Hank', was tortured and that this nearly caused an incident with other Tau Cetians who wanted to militarily intervene on behalf of their captured colleague. [\[111\]](#)

The events described by Oscar are consistent with the main activity of the Tau Cetians as described in the following telepathic communication: "One of the races is from Tau Ceti. They're specialists in intrigue and determining motivations of cloaked societies. They understand the ways that subterfuge can cripple a system. So they would be excellent contacts for undercover work." [\[112\]](#)

The second individual who had physical contact with Tau Cetians was an abductee, Jill Waldport, who described to Frank Crawford how she had been contacted by two sets of extraterrestrials, the Grays and a human looking race that attempted to help her in dealing with the Grays:

Jill informed me that the aliens told her they didn't like what some of the aliens were doing to her without her consent. They had come to help her learn how to overcome the DECEPTIONS of the Grays and to protect herself. They explained that she needed to psychically build a shield around herself, like a brick wall, when they came for her. This would help keep her from being deceived by their MIND TRICKS. She tried it the next time the Grey's came or her and it 'seemed' to work. [\[113\]](#)

Crawford then revealed how Jill described the origins of the benevolent extraterrestrials as Tau Cetians:

At this point the correlation counter in my mind was working overtime, so I decided

to go for gold and ask her if they told her where they were from. Believe it or not she replied, 'Tau Seat-eye, does that make any sense?' Later I mentioned to Oscar that I was investigating a case that involved intense interaction with Grays and Tau Cetians showing up to help. He asked where the case was from and I told him near Springfield, Illinois. He rattled off a very accurate description of Jill and said he was aware that she had been contacted. [114]

In conclusion, the Tau Cetians main activities lies in raising awareness of how to deal with the subversion of societies by extraterrestrial races, identifying corrupt elites and institutions, uplifting human consciousness, and developing strategies for negating advanced mind control techniques. The global solutions they can assist in include exposing government/financial corruption and elite manipulation, monitoring extraterrestrial infiltration, deprogramming mind control and implant removal, promoting multidimensional consciousness, diplomacy and conflict resolution.

Andromedans

Those ET's from Andromeda are also described by Alex Collier as having been direct descendents of the Lyrans who experienced some difficulty when first leaving the Lyran system due to predatory extraterrestrial races, but eventually settled in the Andromeda constellation in the star system 'Zenetae'. Collier describes the nature of the Andromedans as follows:

Everything that they create technologically is used for the advancement of their race. It is for educational purposes only. But, it can be used in defense. No, they do not have a military, per se, they are scientists. What they do is send their children to school anywhere from 150 to 200 years, in our linear time. They teach their students all of the arts and sciences. They are literally masters at everything. Then, at that point, they have the choice in what it is they want to do, and they can change their minds anytime and do something else. So, they are given all the tools. Everything is for education. Nothing is for distraction. They would never conceive of creating television as a distraction. Never. Everything is to help them evolve, and their science and their technology can be used for defensive purposes -- mostly the holographic stuff. [115]

The most significant feature of the **Andromedans** is that they are instrumental in the Andromeda Council which is a grouping of approximately 140 star systems who deliberate upon Earth. In a 1997 Interview, Collier described the Council's deliberations as follows

Now, in our galaxy there are many councils. I don't know everything about all those councils, but I do know about the Andromedan council, which is a group of beings from 139 different star systems that come together and discuss what is going on in the galaxy. It is not a political body. What they have been recently discussing is the tyranny in our future, 357 years from now, because that affects everybody. Apparently what they have done, through time travel, is that they have been able to figure out where the significant shift in energy occurred that causes the tyranny 357 years in our future. They have traced it back to our solar system, and they have been able to further track it down to Earth, Earth's moon and Mars. Those three places. The very first meeting the Andromedan council had was to decide whether or not to

directly intervene with what was going on here. According to Moraney, there were only 78 systems that met this first time. Of those 78, just short of half decided that they wanted nothing to do with us at all, regardless of the problems. I think it is really important that you know why they wanted nothing to do with us. We are talking about star systems that are hundreds of millions of light years away from us. Even some who have never met us. They just knew the vibration of the planet reflected those on it. The reasons why they wanted nothing to do with us is that from their perspective, Earth humans don't respect themselves, each other or the planet. What possibly can be the value of Earth humans? Fortunately, the majority of the council gave the opinion that because Earth has been manipulated for over 5,700 years, that we deserved an opportunity to prove ourselves - to at least have a shot at proving the other part of the council wrong. [116]

Another contactee who mentions the Andromedans is 'Adrian' who was extensively interviewed by researcher Sean David Morton and found to be credible. Adrian's testimony was supported by extensive photos, film and witness testimonies. [117] According to 'Adrian', the Andromedans play an important role in forming councils that deliberate on Earth's future thereby independently confirming Collier's testimony. The Andromedans are one of the main extraterrestrial races most responsible for crop circles. He argues that the crop circles are intended both to inspire humans with the possibility of extraterrestrial communications, and to warn negative extraterrestrials of the consequences of their actions to control and manipulate humanity.

The Andromedans' chief activity appears to be facilitating decisions of the Galactic community in dealing with difficult problems such as the current Earth situation, innovative strategies for resolving conflict, the education of youth and inspiring humanity with the possibilities of extraterrestrial contact. The global solutions they promote include assisting the growth of psychic/crystal/rainbow children, peace education, exposing elite manipulation, promoting improved global governance, and diplomacy and conflict resolution.

Sirians from Sirius A

Now the next group of extraterrestrials are described as coming from Sirius which is a binary star system that allegedly harbors advanced life around its two main stars, Sirius A and B. Sirius A is a blue white star that is approximately 8.6 light years from Earth, twenty times brighter than the sun, and is the most brilliant star in the night sky. [118] In contrast, Sirius B is a white dwarf sun that ranges between 8 to 32 astronomical units from Sirius A in a highly elliptical orbit. Collier, describes the extraterrestrials from Sirius A as follows:

There is a race of beings on Sirius A, the humans there are called the Katayy. They are considered benevolent. ... Many of the human races there are red-skinned. Their ancestry is some of the first Lyraens that escaped with the women and children during the war. In their oceans they have whales, octopus and sharks. They are a race that is artistic. They have music and are connected to nature. They are builders and not very

political. Their governments are based on “spiritual technology,” which uses sound and color. [\[119\]](#)

The racial characteristics of the Sirians suggest that they were originally colonists from Vega. If the Sirians were originally Vegans escaping some cataclysmic interplanetary war in the constellation of Lyra, then it might well be understandable how they developed an interest in building, since the building of a new civilization on new world in the relative young star system of Sirius A, would have been an urgent requirement.

Collier refers to the Sirians using sound and color as a kind of ‘spiritual technology’ which suggests that they specialize in terraforming planets and making them suitable for the evolution of life by altering the ‘bio-magnetic energy’ grid. [\[120\]](#) The following telepathic communication provides more information on the Sirians as builders of new planetary structures in terms of altering the ‘bio-magnetic energy grid’ that assist the evolution of humans and other life forms:

They are the original builders of your grid, the architecture on which your planet was based. So therefore they are useful in discerning the sacred geometry and discerning the physical laws of your home world. They can help you also in constructing the new grid, in constructing a new system that is appropriate for your next challenges. So we would say that the Sirians are excellent allies in the strategic design work that lies ahead. [\[121\]](#)

Alex Collier claims that the intervention of the Sirians A is due to mistakes made by those from Sirius B in terms of technology transfers and other forms of assistance given to humanity:

“My understanding is that those from the Sirius A system are trying to be beneficial and assist, because they feel responsibility in that those who colonized Sirius B system were originally from Sirius A.” [\[122\]](#)

In conclusion, the main activity that can be attributed to those extraterrestrials from Sirius A is to assist in building a suitable ecological system for (human) evolution on Earth by altering the ‘bio-magnetic energy grid’ of the planet. Those from Sirius A can assist in global solutions such as environmental protection, promoting biodiversity, assist in consciousness raising; and evolution of the biosphere.

The **Ummites** are described as extraterrestrials from the planet Ummo which is claimed to be 14.6 light years away, and possibly located in the star system Wolf 424. [\[123\]](#) They played a significant role in disseminating scientific technical literature and objects through Spain and then relayed to the rest of Europe in the 1960s and 1970s from a hidden base near a small town in the French province of ‘Basses Alps’ (Lower Alps). The Ummites contacted a select number of individuals and distributed to them detailed technical information on different technologies and revolutionary theories that would expand scientific knowledge beyond the prevailing orthodoxies. The only physical contact the Ummites had with anybody, aside from phone calls and sending technical information by regular mail, was with a hired typist who described how he

worked for and eventually discovered the identities of the Ummites:

Between 1967 and 1975 the members of the Madrid group [Spanish UFO researchers aware of the Ummites] received a letter from a man who claimed to be the Ummites' typist. Apparently, he had advertised for work in a newspaper and had subsequently been visited by two tall, fair-haired respectable dressed men. They told him that they were Danish doctors and asked if he could type out scientific material for them on a regular basis. Initially all went well, until the day he read the following sentence: 'We come from a celestial body named Ummo which is 14.6 light years from the Earth. - He took this at its face value and questioned the doctors - eventually they admitted that they were not Danish doctors at all, but extra-terrestrial visitors. To prove their identity they produced a tiny sphere just an inch or so in diameter, which one of them placed in mid-air before the typist. He looked into it and to his amazement saw a scene that had taken place in that same office on the preceding day when his wife, fearing that the Danish doctors might be spies. [124]

There was however a well recorded public event in the form of an Ummo spacecraft that landed near Madrid on June 10, 1967 that was announced by the Ummites several days before to a select group of UFO researchers. [125] The Ummite's approach appears to be one of helping scientists develop innovative technologies and theories that assist in addressing global problems that require technical solutions. In 1973, due to the uncertainty over a nuclear war on Earth, the Ummites terminated their residence on Earth and departed. They subsequently sent the following message in 1980 to Dr Antonio Ribera, one of the Spanish UFO researchers that had taken up their case:

For 30 years we have studied your science, your culture, history and civilizations All this information we have carried from your Earth to Ummo in our titanium crystals codified with data. We HAVE DEMONSTRATED to you our culture and our technology in purely descriptive form - so you cannot convert them or realize them practically. We have done this because we note with sadness that you employ your sciences primarily for war and the destruction of your own selves, which cont[inue] as your principal objective. You are like children playing with terrible and dangerous toys which will destroy you. WE CAN DO NOTHING! A cosmic law says that each world must take its own path, to survive or to perish. You have chosen the second. You are destroying your planet - annihilating your species, and contaminating your atmosphere and your seas until now this is irreversible. With sadness we contemplate your insanity, and understand that the remedy is only in yourselves. We can not look forward a great distance into your future because your psyche are completely unpredictable and capricious bordering on paranoia. As your elder brothers in this cosmos, we urgently desire with all our hearts your salvation. Do not destroy your beautiful blue planet, a rare atmospheric world that floats so majestically in space, so full of life. IT IS YOUR CHOICE. [126]

While it cannot be known exactly how influential the Ummites assistance has been since it was largely covert, it certainly appears to have been significant in sparking innovative scientific initiatives by range of technically competent professionals and private citizens. It can be concluded

that the Ummite's main activity lies in sharing technical information, transforming scientific culture, and global education. The Ummites can assist in global solutions surrounding the transformation of scientific paradigms, development of environmentally friendly technologies, and educational reform.

Another extraterrestrial race that appears to be playing a significant role in human affairs is from the Alpha Centauri star system. Alex Collier claims the Alpha Centaurians are one of the races visiting the Earth. [\[127\]](#) The most compelling testimony supporting the presence of the **Alpha Centaurians** is Elizabeth Klarer who had high level responsibilities within the British military to monitor UFO reports. [\[128\]](#) Klarer was apparently contacted by the Alpha Centaurians and eventually taken to Alpha Centauri for a few months to have a child fathered by the Alpha Centaurian, Akon. Klarer's description of the Alpha Centaurians gives a vivid account of how technology can be wisely used to benefit both humanity and the ecosystem. The Alpha Centaurians were argued to be benevolent and genuinely desiring to assist humanity in dealing with its evolution.

An alleged former employee of the covert Montauk and Philadelphia projects, Al Bielek, discussed a number of extraterrestrials including the Alpha Centaurians. Bielek's testimony is perhaps one of the most bizarre and controversial cases in UFO research yet his testimony is coherent and consistent, and according to an independent investigator, John Quinn, Bielek is very credible and there is much evidence to support his claims. [\[129\]](#) The Alpha Centaurians, according to Bielek, apparently provide a form of sanctuary and protection to humans that desire assistance in dealing with the repressive polices of the shadow government. Bielek stated the nature of this agreement with the Alpha Centaurians in an interview:

AB [Al Bielek].There are shuttles regularly from this planet to Alpha Centauri 4 which by agreement is a safe haven for people wanted by the U.S. Government. There's a treaty. It takes about 12 hours to get them. Apparently they took all of their family which meant sisters, brothers, father, mother, whatever, with them. As far as I know they're still there.

SS [questioner]: Who runs the shuttle?

AB: Presumably the Alpha Centauri Government, but I don't know. But it's on a regular basis twice a week. The landing point I have no idea where it is. Of course they guard it secret.

SS: What is their body form like?

AR: Alpha Centauri? Like humans, exactly the same. There's a much lower population on their planet. They're not overpopulated. They're an advanced civilization, a little ahead of us - not a great deal, but somewhat ahead of us. They don't like things like government headbashing and that sort of thing and they way they treat some of the government agents they no longer have any use for or whatever, if they are approached, and I don't know how it's done, if they are approached and asked for asylum, if they issue the card, you just get on the shuttle and that's it, you're there. Beyond that I don't know. I haven't seen them since. [\[130\]](#) This role of providing sanctuary to humans threatened by the shadow government

indicates that the Alpha Centaurians are very interested in social justice and helping in the transition of Earth towards a more trusting and nurturing global society. This is a theme elaborated upon in the following telepathic communication from an independent source: “Those from [Alpha] Centaurus have an open society, a trusting and loving one, so they would be useful to you as you begin to design the social rules for an alternative to a combative or competitive social structure.” [131] The main activity of the Alpha Centaurians can therefore be inferred as promoting social justice and human freedom, and the responsible use of advanced technology. The Global solutions that can be promoted by the Alpha Centaurians include social justice at a global level, creating zones of peace or peace sanctuaries, human rights and sustainable development.

The final extraterrestrial race to be examined due to their significance are the **Arcturians** who are described as once having seeded the Earth with their members and presumably peacefully coexisted with other races. According to Andrews: “In antiquity this planet was divided into sectors among four different groups: Blonds, Grays, large lizard-like beings from the Capella system, and beings from the Arcturus system.” [132] Andrews goes on to describe the Arcturians as currently playing an observer role in the current battle between extraterrestrial groups over Earth and her population. Collier describes the Arcturians as also being one of the races interacting with the Earth and that they are “trying to help.” [133] According to the contactee ‘Adrian’, the Arcturians are the extraterrestrial race most responsible for crop circles. [134] He argues that the crop circles are intended both to inspire humans with the possibility of extraterrestrial communications, and to warn negative extraterrestrials of the consequences of their actions to control and manipulate humanity.

A more detailed description of the Arcturians is given by Collier:

This group of beings settled in the constellation of Arcturius. These races of humanity are very private, and for very specific reasons do they get involved with Earth. They think of themselves as healers. They carry a strong pride of technology in the arts of physical healing, and emotional and spiritual bodies. They have been known to intervene in the ancient past to help resolve very serious conflicts in our area of the Universe by sharing their unique ability to show others how to integrate their belief systems and feelings to resolve conflict. They can be very silent, and can and will keep very much to themselves. They as a group, have done much to help raise the overall levels of consciousness in our Universe. [135]

Most information on the Arcturians comes from those claiming to have telepathically communicated with them. For example, Dr Norma Milanovich in her book, *We, The Arcturians*, describes her communication with the Arcturians through a form of computer aided automatic writing. [136] She claims the Arcturians are here to:

... assist Earth as it enters a New Age of spirituality. They cannot interfere with the free will or decision-making process of any Earthling, but are here to educate and

help raise the vibrations of all who choose to journey to the new dimension the Earth is entering. [137]

The Arcturians are described as having a highly developed spiritual culture and technological sophistication that gives them great influence in the galaxy. Another individual who telepathically communicates with the Arcturians claims they have the following mission on Earth:

The Arcturians are the overall guides or administrators of the contact experience. They have a desire generally to see this go well. To see you learn as much as possible by this process and to assist you in any way they can. However, their affinity is to the future of the planet as a whole and they tend to have a hands-off approach as much as possible. They will tend to do the least amount of work for the greatest effect. You'll find them to be efficient and quite creative in this. They may be useful to you in learning how to play, how to wait for the right timing, and how to do the very few important things that you must do to succeed. [138]

The Arcturians' main activity therefore appears to be one of integrating spiritual values with advanced technologies, in providing strategic advice in transforming planetary systems, and inspiring humanity with the possibilities of extraterrestrial contact. The global solutions the Arcturians contribute to include transparent and accountable global governance; integrating global financial, political and societal systems; helping humanity coordinate effectively with all extraterrestrial races, and diplomacy and conflict resolution.

In conclusion, the main activities of the Arcturians and other extraterrestrial races that lie outside of the Military-Industrial-Extraterrestrial Complex can be summarized as follows in **Table 2:**

Extraterrestrial Races Outside the Military-Industrial-Extraterrestrial Complex

ET Races	Main Activities	Assist in Global Solutions
Telosians (Earth)	Helping surface humanity learn of its ancient Earth history, restore human longevity, changing unhealthy belief systems & protecting the environment.	<ul style="list-style-type: none"> • Environmental Protection • Promoting bio-diversity • human health & longevity • recovery of humanity's history
Lyrans (Lyra)	Disseminating the unique history of Nordic human race in the galaxy, and assisting in understanding human motivations and potentials.	<ul style="list-style-type: none"> • recovery of humanity's history and Lyran heritage • understanding galactic history • discovery of the human essence • diplomacy & conflict resolution • global education
Vegans (Lyra)	Disseminating the unique history of the darker/blue skinned human race in the	<ul style="list-style-type: none"> • recovery of humanity's history and Vegan heritage • understanding galactic history • discovery of the human essence • diplomacy & conflict resolution

	galaxy, and assisting in understanding human motivations and potentials.	<ul style="list-style-type: none"> • global education
Pleiadians (Pleiades)	Helping humanity find freedom from oppressive structures through consciousness raising	<ul style="list-style-type: none"> • universal human rights • participatory democratic systems, • evolution of human consciousness • global education
Procyons (Procyon)	Promoting effective resistance to extraterrestrial subversion, developing 'multidimensional consciousness', using mental imagery to prevent ET mind control, monitoring unfriendly ET activity	<ul style="list-style-type: none"> • Exposing ET subversion • ending global secrecy of ETs • multidimensional consciousness • deprogramming mind control • universal human rights • internet & global communication
Tau Cetians (Tau Ceti)	Exposing ET subversion & control, identifying corrupt elites & institutions, uplifting human consciousness, negating ET mind control and dealing with militarism.	<ul style="list-style-type: none"> • exposing government/ financial corruption & elite manipulation • monitoring ET infiltration, • multidimensional consciousness • deprogramming mind control • conflict resolution
Andromedans (Andromeda)	Facilitating decisions of the Galactic community in dealing with the current Earth situation, innovative strategies for resolving conflict, the education of youth, and crop circles	<ul style="list-style-type: none"> • education of psychic/crystal kids • peace education • exposing elite manipulation • improved global governance • diplomacy & conflict resolution • extraterrestrial communications
Sirians (Sirius A)	Assisting in building a suitable ecological system for (human) evolution on Earth by altering the 'bio-magnetic energy	<ul style="list-style-type: none"> • Environmental Protection • Promoting bio-diversity • raising human consciousness • evolution of the biosphere

	grid' of the planet.	
Ummites (Ummo)	Sharing technical information, transforming scientific culture, and global education.	<ul style="list-style-type: none"> • Transforming scientific paradigms • Developing alternative technologies • Educational reform
Alpha Centaurians (Alpha Centauri)	Promoting social justice and human freedom, and responsible use of advanced technology.	<ul style="list-style-type: none"> • Social justice at a global level • zones of peace • human rights • sustainable development
Arcturians (Arcturus)	Integrating spiritual values with advanced technologies, in providing strategic advice in transforming planetary systems, and crop circles.	<ul style="list-style-type: none"> • global governance • integrating global financial, political and societal systems • coordinating relationships with ETs • diplomacy and conflict resolution • extraterrestrial communications

4. Conclusion

While there are a number of other extraterrestrial races who have been reported by whistleblowers and/or contactees, evidence points to the races examined above as having most significance for humanity. [139] The primary means of distinguishing the races above is the degree to which they participate in technology exchanges and joint projects with the shadow governments in the U.S. and elsewhere. Those races grouped into the first category are to varying degrees part of a military-industrial-extraterrestrial complex (MIEC) that secretly consumes vast resources through black budgets in the U.S. and elsewhere, and initiates covert projects that harm private citizens, developing nations, and the global environment. [140] In contrast, those extraterrestrial races outside of the MIEC have only minimal impact on human society since they are prevented from any large scale interaction due to the agreements that bind together the MIEC. These agreements are either exclusive as to which races can cooperate with shadow governments, or result in races outside the agreements adopting a non-intervention policy.

The systemic global problems caused by the MIEC are an increasing burden and immediate threat to human freedom and sovereignty. [141] Continuing with the current strategic response to the extraterrestrial presence by shadow governments, plays into the hands of those extraterrestrials who wish to deprive humanity of its sovereignty and freedom. The alternative is to work with those extraterrestrials outside the MIEC that appear to have the best interests of humanity at heart.

Cooperating with extraterrestrial races outside of MIEC provides an important opportunity for those private citizens who are concerned about the secret agreements between government agencies and those extraterrestrial races who are part of the MIEC. Working with extraterrestrial races whose activities lie in the realm of human emancipation, consciousness raising and conflict resolution, provide important global solutions to the harmful effect of a vast MIEC that continues to remain clandestine, non-accountable, and unrepresentative. The opportunity to address the systemic global problems caused by almost 50 years of secret agreements with extraterrestrial races lies before each individual concerned about the future of humanity and the Earth. Private citizens and small groups have the ability capacity to identify, find and cooperate with those extraterrestrial races that can assist in providing global solutions that lead to the liberation, consciousness raising and sovereignty of humanity. As individuals and small groups ponder the enormous challenges of working with extraterrestrial races outside of the MIEC, they might take comfort in the words of Margaret Mead: "Never doubt that a small group of thoughtful, committed citizens can change the world. Indeed, it's the only thing that ever has!"

ENDNOTES

[1] I sincerely thank H.M. for his generous support of this research, editorial assistance, and the many hours spent discussing and clarifying the roles of the various races discussed in this paper. I also thank Angelika Whitecliff for her generous support and assistance during the revision of this report.
